Approved For Release 2006/04/20: CIA-RDP82-00457R011500360008-1 SECRET/CONTROL - U.S. OFFICIALS ONLY

-2-

b. AKADEMIK KOMAROV

A Russian motor vessel of approximately 1,200 B.R.T.

- 3. The SMOLENSK was to arrive at the shippard within a few days after 20 January.
- 4. Shipbuilding.
 - a. A cargo motor vessel for operation on the Volga River is to be constructed in the dockyard, but no plans have as yet been received.
 - b. Two floating cranes are to be constructed, one for Wismar and the other for Warnemuende. They are to have a lifting capacity of 100 tons. The cranes will be delivered from the firm of Stahlbau Halle, VVB ABUS.
 - c. Laying the keel for Type I, the new type of DDR merchant vessel, has been postponed indefinitely because of shortage of materials.
- 5. At present only one German merchant vessel is known to be operating on the Baltic coast. This vessel, the YORWAERTS is believed to operate between Warnemuende and the USSR.
